

Fit Backrest

The Jay Fit backrest provides multiple opportunities for positioning and growth. With its anatomical shape and multiple settings, the Jay Fit backrest gives the patient greater comfort and independence, providing trunk stability and proper positioning. Thoracic laterals and head supports contribute to the correct positioning of the user.

Allows multiple options for growth and change over time. **Image 1.**

Now Available with Whitmyer® Headrests and JAY Positioning Supports. **Image 2.**

New Swing-Away Lateral Design. **Image 3.**

Mounting Hardware options. **Image 4.**
