

Cushion X2

JAY®

The JAY X2 is a lightweight, maintenance-free, fluid wheelchair cushion with a reduced profile that is designed to provide stability and pressure relief to active clients. Using elements from the JAY Xtreme and Active cushions, the X2 combines JAY's time-tested designs with its latest technologies.

Light and stable foam base with reduced profile. **Image 1.**

It features a small JAY Flow fluid insert, which adapts to each individual's shape and secures bony prominences to help protect the skin from injury. **Image 2.**

Innovative double deck system. **Image 3.**

The bag in the photo is optional. **Image 4.**
