

Stander Prone & Supine

 rifton.

Prone

Supine

Multi-position stabilizer that can easily switch between face down and face up, giving you the most flexibility and the most options for the user. Provides support and stability while encouraging weight bearing and use of hands and arms.

It can be tilted 90° from horizontal to completely vertical. Adjust the ideal angle for each user. **Image 1.**

Body support with large, padded area, which supports the user's pelvis and trunk with optional Split Knee Support. **Image 2.**

Independent hip abduction with 0-30° of independent abduction for each lower extremity. **Image 3.**

The caregiver handle allows for easy maneuvering and can be quickly adjusted up or down. **Image 4.**
