

Power Chair with electric tilt & recline

FELIX^{RT}

The Felix® RT is a motorized wheelchair with a rigid frame and electronic tilt and recline system that offers maximum independence and comfort. Designed for users with neurological damage, it allows for effortless postural adjustments. Its injection-molded foam backrest and seat provide continuous support, helping to maintain proper and comfortable posture at all times.

Dynamic controller + lights + Actuator and USB. **Image 1.**

Front and rear lights. **Image 2.**

Electronic tilt from 0° to 20°. **Image 3.**

Electronic recline from 90° to 140°. **Image 4.**
